

"Special wire" offers high performance cutting speed combined with a very good surface finish.

The surface is extremely clean and is the best option when very fast speed and precision cuttings demanded.

- ✓ Very good performance / price ratio.
- ✓ Gain of more than 15% cutting speed compared to brass wire thanks to its unique coating
- ✓ High precision in cutting with excellent surface finish

Composition	Characteristics	Special Wire
 <p>CuZn especial</p> <p>CuZn Aleación</p>	Core	CuZn Alloy
	Coating	Special alloy
	Tensile strength	875N/mm ²
	Elongation	2,0%
	Conductibility	20% IACS
